

Tired of endless syringing of your endoscopes?

Not if you're using
SCOPE BUDDY®
Endoscope Flushing Aid

NOW for use with High-Level Disinfectant

- Eliminates manual syringing of channels during HLD steps.
- Compatible with all flexible endoscopes.
- Continuous, timed fluid delivery through all endoscope channels ensures consistent, repeatable results.
- Hands-free flushing of most endoscopes in 35 seconds.
- Combine with RAPICIDE® OPA 28 HLD for fast (5 minute) disinfection time and up to 28 days of reuse life.

SCOPE BUDDY Endoscope Flushing Aid for use with HLD is for use outside the U.S. only.
