

# BARRX™ FLEX RFA ENERGY GENERATOR EASIER. FASTER. SMARTER.

## ONE GENERATOR. MULTIPLE SOLUTIONS.

Provides the flexibility to choose either the Barrx™ 360 RFA balloon catheter for larger circumferential treatment areas or one of the Barrx™ family of focal catheters for treatment of smaller focal areas.

The Barrx™ flex RFA energy generator is a bipolar radiofrequency (RF) energy generator designed to precisely control depth and uniformity of tissue ablation in the GI tract.

Treating circumferential disease with a Barrx™ 360 RFA balloon catheter

Treating a small area of disease with a Barrx™ RFA focal catheter

### Easier

- Seamless transition between circumferential and spot treatment cases.
- Intuitive sizing provides improved differentiation between the esophagus and stomach.

### Faster

- Rapid firing for reduced procedure time.
- Recovery in <2 seconds with Barrx™ RFA catheters.

### Smarter

- Automatically recommends ablation catheter sizing.
- Tracks and displays total number of ablations.
- Automatically adjusts default power density settings to match catheter.
- Platform for future clinical and product innovation.

# BARRX™ RADIOFREQUENCY ABLATION SYSTEM SPECIFICATIONS

## Barrx™ Flex RFA Energy Generator: 1190A-115A

The Barrx™ flex RFA energy generator encompasses "2 procedures in 1," providing the flexibility to choose either the balloon-based circumferential Barrx™ 360 RFA balloon catheter for larger treatment areas or one of the Barrx™ family of focal catheters.

### Accessories included:

Flex RFA Footswitch: FLEXFS-010A

Barrx™ footswitch for hands-free activation of ablative delivery system

Flex RFA Output Cable: FLEXCC-020A

Barrx™ connection cable for the ablation catheter to the Barrx™ flex RFA energy generator

## Barrx™ RFA Cart: CART-100

Custom-designed to accommodate Barrx™ flex RFA energy generator, Barrx™ catheters and accessories.

- Overall dimensions:  
Height: 42.5"  
Width: 22.5" (34" w/trays)  
Depth: 23"
- Product storage capacity:  
18 Barrx™ 360 RFA balloon catheters  
12 Barrx™ RFA focal catheters  
12 Barrx™ RFA endoscopic guidewires
- Net weight: 100 lbs.

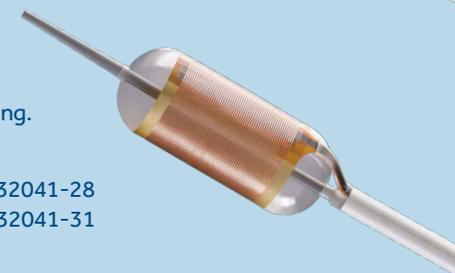

## Products for Use with the Barrx™ Flex RFA Energy Generator

**Barrx™ 360 Soft Sizing Balloon 3441C:** Compatible with the Barrx™ flex RFA energy generator for automated sizing.

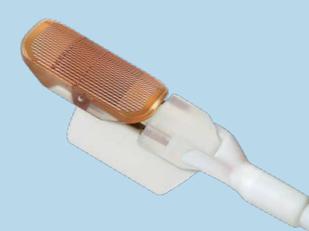

**Barrx™ 360 RFA Balloon Catheter:** Compatible with the Barrx™ flex RFA energy generator for automated sizing.

Available diameter sizes:

18 mm: 32041-18    28 mm: 32041-28  
22 mm: 32041-22    31 mm: 32041-31  
25 mm: 32041-25

**Barrx™ 90 RFA Focal Catheter 90-9100:** Proprietary RF bipolar electrode array delivers energy to targeted smaller areas of tissue.

**Barrx™ Ultra Long RFA Focal Catheter 90-9200:** Single-use catheter fits on the distal end of a flexible endoscope. This bipolar electrode array delivers energy to larger areas of tissue.

**Barrx™ 60 RFA Focal Catheter 90-9300:** Single-use catheter fits on the distal end of a flexible endoscope. This bipolar electrode array delivers energy to smaller areas of tissue.

**Caution:** Federal law restricts this device to sale by or on the order of a licensed healthcare practitioner. Rx only.

**Risk Information:** The following are transient side effects that may be expected after treatment: chest pain, difficulty swallowing, painful swallowing, throat pain and/or fever. Complications observed at a very low frequency include: mucosal laceration, minor and major acute bleeding, stricture, perforation, cardiac arrhythmia, pleural effusion, aspiration, and infection. Potential complications that have not been observed include: death. Please refer to the product user manual or [medtronic.com/gi](http://medtronic.com/gi) for detailed information.

**EXTENDED SERVICE AGREEMENTS AVAILABLE:** The Barrx™ flex RFA energy generator includes a 1 year warranty on the generator, footswitch and output cable. Medtronic offers 1, 2 and 4 Year extended Service Plans.

**NOTE:** Although the complication rate associated with radiofrequency ablation (RFA) using the Barrx™ 360 RFA balloon catheter and Barrx™ 90 RFA focal catheter has been demonstrated to be low, as with most endoscopic procedures, there are risks associated with RFA, including serious complications. For complete information regarding indications for use, warnings, precautions, adverse events and methods of use, please reference the devices' Instructions for Use.
