

ATMOS® HL 21 LED

# Unlimited mobility!

# ATMOS

The cable-free head  
light and with un

# Headlight - limited mobility

As a doctor you require bright and focusable illumination, at the same time you would like a lightweight, mobile system with a long product life and low follow-up costs. Now with the new headlight ATMOS® HL 21 LED this kind of system is available to you.

## The new technology

The new lithium-ionic batteries offer much longer operation time compared with the traditional batteries. The power white-light LED with up to 50,000 hours life-span is very robust, develops no heat, is lightweight and comfortable to wear and provides excellent illumination at low running costs

The ATMOS® HL21LED is especially suitable for the following specialised groups:

- ENT practitioner in the surgery, on the ward and in outpatient departments
- General practitioners
- Consultants in different fields

No heavy light guide cable, no ventilation noise is disturbing you at your work anymore.

## Headlight ATMOS® HL 21 LED - enables unlimited mobility

### Perfect wearing comfort

Comfortable to wear, even for several hours, due to the soft version with joint.

### Adjustable bow

fits every head.

### Neoprene band

The headband can be washed in the washing machine.

### Lithium-ionic battery

integrated and exchangeable. With charging indication and selector switch for power and eco mode.

### Holding clip

for lithium-ionic battery

Double-joint  
for perfect light positioning

Focusable  
for optimal illumination

Universal battery  
quick-charging power pack.

Cable  
Length: 150 cm and 40 cm.

Very bright LED  
with a long service life (approx. 50.000 h).

## ATMOS® HL 21 LED sets and accessories

ATMOS® HL 21 LED examination set		REF-Nummer
<p><b>1 For optimum and mobile illumination of medical examinations, e.g. in the ENT field</b></p> <p>Characteristics: long-life light source with power-white light LED, focussing optics, infinitely variable, high-end battery with particularly light-weight and powerful lithium-ionic battery, 2 operation modes: Eco /Power, ergonomic ultra-lightweight headband, holder for battery on headband, rear, universal battery quick-charging power pack with primary adapters assortment, connecting cable to LED battery</p> <p>Scope of delivery: <i>1 x Headlight ATMOS® HL 21 LED, connecting cable to LED battery (40 cm), 1 x lithium-ionic battery, 1 x battery quick-charging power pack</i></p>		507.4505.0
