

The softest mammogram

“The cushion helped tremendously...because it was soft, it took away a lot of the discomfort.”

Amy McNulty, Westwood, MA

“One of the big differences is it’s not cold and it’s not hard. There’s less of a pinched feeling by using the pad.”

K. Jessen, Ridgecrest, CA

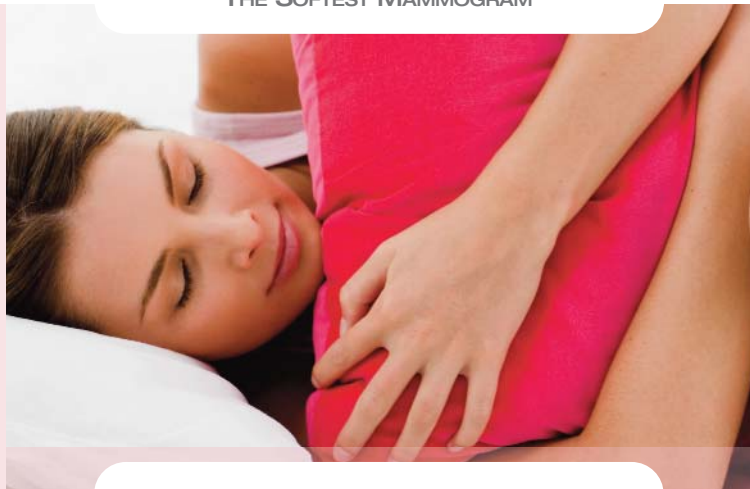

“I was very pleasantly surprised that such a thin pad made such a huge difference in comfort. MammoPad is definitely a huge step forward for womankind.”

D.C. Powers, Hollywood, CA

THE SOFTEST MAMMOGRAM

Ask for MammoPad®

For women who want a
mammogram with less discomfort.

We are a proud certified Softer Mammogram Provider.SM Our facility provides every woman with the MammoPad[®] breast

cushion—a soft, foam pad that creates a cushion between you and the mammography machine. So you can relax, knowing your mammogram will be warm and comfortable.

And when it comes to encouraging your friends to take care of themselves, you might have to take matters into your own hands. Spread the word about our new Softer Mammogram—one friend at a time. It's one way you can share in our urgent mission of saving lives.
