

DEEP ACTIVE
ROTATIONAL
MASSAGE

The exclusive **MARP** system provides effective and safe biomechanical therapy that stimulates the muscle and dermal tissue at a deep level and activates the physiological tissue-healing processes.

The combination of **MARP** and **RF** ensures and exponentially enhances the results obtained in the different treatments.

clinical effectiveness

Clinical studies have demonstrated that the combination of **MARP with resistive radiofrequency** not only guarantees results in body remodelling and elimination of cellulite but also, due to its action at the dermal, muscular and vascular levels, it improves lymphatic circulation.

ZIONIC guarantees the maximum effectiveness in the different treatments:

**REDUCTION
TONING
FIRMING
CELLULITE
REMODELLING**

zionic
rollactive RF

ZIONIC

First device that combines a system of deep active rotational massage (MARP) with a resistive radiofrequency that guarantees rapid results and maximum effectiveness in treatment of cellulite, sagging, as well as remodelling.

HOW IT WORKS

It generates a double thermal and mechanical effect on the connective tissue that triggers three different actions: dermal, muscular and vascular.

It activates the physiological processes of tissue recovery.

INDICATIONS

Cellulite
Firming
Remodelling
Reduction
Toning

BENEFITS

Reduces the cellulite and orange peel skin appearance

Tightens the skin thanks to the increase of collagen and elastin

Provides hydration and density to the skin

Activates the lymphatic system

IS THE TREATMENT SAFE?

Yes, clinical studies ratify the effectiveness and safety of the treatment with ZIONIC in every application without posing any risk to the skin or tissues.

IS ANY POST-TREATMENT CARE NECESSARY?

No, the client can carry on with the normal life without alterations, no post-treatment care is necessary.

MAXIMUM RESULTS

Combined with physical exercise and regular diet, these results are extended permanently in time.

MARP + RF
Maximum effectiveness and safety

DIFFERENT TREATMENTS

30/40 min session
